Prevent Risk Assessment 2023

Under the Prevent Duty, all specified bodies, including schools, colleges and universities are required, in the exercise of their functions, to have 'due regard for the need to prevent people being drawn into terrorism'. The legislation sets out that schools must assess the risk of children being drawn into terrorism, and that this assessment should be based on 'an understanding, shared with partners, of the potential risk in the local area'. It will be necessary for schools to develop an action plan outlining how identified risks will be addressed. This Prevent Action Plan Template has been developed to assist schools in doing so by providing some suggested risk areas and proposed actions.
